THE FORTUNES OF THE COLVILLE FAMILY, by Frank E. Smedley, author of Frank Farleigh, Lewis Arundel, &c. The following are a few unaolicited notices of the Press:

"The Fortunes of the Co'ville Family," by the author of "Frank Farleigh," "Lewis Arundel," &c. This capital romance has just been sent to us by the publishers, H. Long & Brother. New York. It is written with great power and feniotry—presenting the two planes of life, opulence and powerty, in marvelous contrast, and with vivillenes that the most hasty reader crannot fail to receive their teachings. Each character is drawn with an object—we find man superfluintee either in the plot, the personan, the marriane or an inequality which adds much streamly to this hook, as well as the receive their years the earthy to this hook, as welled. We heartly recommend it to public approval.

"There is no writer, of usedern times, who has risen to so great public favor, and in such a short time, as the author of Frank Farleigh and Lewis Arundel. He has well deserved this, for his works are and Lewis Arundel. THE THREE PIRATES: Or, THE CRUISE OF THE TORNADO, beautifully illustrated. By Harry Hasel, auther of "Yankee Jack," "The Burglars," "Adventures of a Sailor Boy," &c.

This is a starting portraiture of pirate life, and carries the reader back to the days of the ferocious Blackboard and the Buccancers. The character and exploits of those roring demons of the sea are depicted, if we may so speak, with an awful power by the author, which, although it thrills the soul with horror, rivets the interest to a degree of intensity that we have not seen squaled in any work of a similar kird. The work also contains many scenes of admits and humor, and in every point of view is one of the best romarces of the sea that has been produced in a long time. Price, 25 cents.

IN THE BARBARY STATES. New and Superb Edition, folly illustrated with 40 elegant designs by Billings, engraved by Baker, Smith & Andrews.

This splendid work, which is considered one of the best productions of the eloquent and talented author, is now offered to the public in this superb and attractive style, and at the low price of 30 cents. It is a complete history of White Statery, its rise, its progress, its termination, with an account of the many distinguished men who were its victimus, among whom were Cervantes, the author of Don Quixote, St. Vincent de Paul, Arago, the Astronomer, and numerous others, whose names and deeds are celebrated in history. Let all apploights for the slavery of the Blacks read this admirable work, and then say whether or not the color of the skin will sanction human chattelhood, and if so which color shall be enslaved. Algerine White Slavery was brought to an end by British cannon. Mr. Sumner, in describing the final scene, says:

"Before roght the fleet fired, besides shells and rockets, one hundred and eighteen tuns of powder, and fifty thorsend short, weighing in one than five hundred time. To cit-seed and massive batteries of Alighaware ships, and gun boats, were in flames, while the blaning lightnings of battle were histed, in a storm of signal furr, by the lightnings of heaven. The power of the Great Nater Dealer was humbled."
